Question What are the main financial statements covered in high school accounting? The main financial statements are the Income Statement, Balance Sheet, and Cash Flow Statement. **Answer** How is a trial balance prepared in accounting? A trial balance is prepared by listing all ledger account balances in debit and credit columns to ensure total debits equal total credits. What is the difference between assets and liabilities? Assets are resources owned by a business, while liabilities are obligations or debts owed to others. Why is understanding the accounting equation important? The accounting equation ($\text{Assets} = \text{Liabilities} + \text{Owner's Equity}$) is fundamental because it shows the relationship between resources and claims against those resources. What is the purpose of journal entries? Journal entries record all financial transactions in chronological order, serving as the initial step in the accounting cycle. How do you differentiate between debit and credit in accounting? Debits increase asset and expense accounts, and decrease liabilities and equity; credits do the opposite. The specific effect depends on the account type. What is the significance of adjusting entries? Adjusting entries ensure that revenues and expenses are recognized in the correct accounting period, adhering to the matching principle. What is depreciation, and why is it important in accounting? Depreciation is the allocation of the cost of a tangible asset over its useful life, helping to accurately reflect the asset's value and expenses over time. How does the closing process work at the end of the semester? The closing process involves transferring temporary account balances (revenues, expenses, dividends) to retained earnings to prepare accounts for the next period. What are common mistakes to avoid in your accounting final exam? Common mistakes include miscalculating totals, mixing up debits and credits, forgetting to post adjusting entries, and not double-checking your work.
