Key features of the 2013 GS pay scale include:

- A structured system of pay grades (GS-1 through GS-15)
- Multiple steps within each grade (Step 1 to Step 10)
- Annual pay adjustments based on cost-of-living increases
- Special pay rates for certain professions or locations (e.g., locality pay)

Structure of the GS-2210 Pay Scale in 2013

The GS-2210 series is dedicated to computer science and related IT roles. In 2013, employees in this series were classified at various grades depending on their experience, responsibilities, and qualifications. The pay scale structure for GS-2210 was aligned with the general GS pay scale but could include additional locality pay adjustments.

Grades and Steps Overview

Each GS-2210 employee's salary depends on two main factors: their grade (e.g., GS-7, GS-9, GS-11, GS-13, etc.) and their step within that grade.

- **Grades:** Ranged from GS-5 (entry-level positions) up to GS-15 (senior technical roles).
- **Steps:** Ten steps within each grade, with Step 1 being the starting salary and Step 10 representing the highest step for that grade.

The pay increases with each step, typically after a set period of satisfactory performance, allowing employees to progress through the steps over their career.

Pay Range for GS-2210 Positions in 2013

The salary range for GS-2210 positions in 2013 varied by grade and locality pay. For example:

- GS-7: Starting salary approximately \$33,394 (Step 1) with maximum pay around \$43,412 (Step 10)
